### Online Education

1. Does all programs/courses were completed on time.		Yes	
2. Measures taken to complete the syllabus of courses and programs.		<p>Nowadays lockdown is a common catchword that has been pondered over by educationists during the corona pandemic. In fact, lockdown is a state of the emergency protocol, implemented across the country since March 2020. Prior to this pandemic, in this university teaching learning was on time and still we are following a set timeline.</p> <p>The outcome of COVID-19 crisis, we became more advanced and adopted digital pedagogy over the digital learning platform. This is the pedagogical shift from conventional methods to the innovative approach of teaching-learning, traditional classroom to on-line learning platform, personal to virtual and seminars to webinars. We have followed the collective vision of UGC and MHRD (supra-system), University and Colleges (system), and different academic departments (sub-system) in favour of implementing online teaching-learning in the education system. Hence, we have implemented the major recommendations of National Education Policy-2020 and modified the teaching- learning ecosystem accordingly.</p> <p>In this university, class-rooms are well equipped and everyone, either faculty or learners, are skilled in using various educational digital applications. As the need of the hour, teachers have adopted digital pedagogy and turned competent into smooth facilitation of using online educational platforms such as ZOOM, Cisco WebEx, Google Meet etc. as a sign of positive transfer of learning. University has made an effort to upload e-content on the university website and also contributed e-content in the Government created e-content portal for remote learners. Various videos have been developed by faculty members in their respective subjects. University has facilitated numerous online management services i.e. online entrance examination, research management system, online student learning portal, e-meetings, e-mentorships etc.</p> <p>It is a well-known assumption that no pedagogical approach can replace the formal mode of learning. But, to some extent, it seems relevant to adopt disruptive innovation to accelerate self-paced learning among learners. We have adopted these innovative pedagogical approaches for teaching and learning to achieve all set educational goals of university within due time. University has made remarkable efforts to complete syllabus within the due time line. Along with, many research oriented events have been also conducted over online teaching and learning and its effectiveness.</p>
